Clark County School District 161
School Board Meeting
May 8, 2025
MINUTES

Call to Order	**5:34 p.m.**
Pledge	
Roll Call	Jeri Tavenner, Chair Tom L. Strong, Vice Chair Deena Williams Laurie Small Rigo Raya
Attendance	Eileen Holden, Superintendent (on phone) Sara Winters, Principal Dan Hager, Maintenance Lisa Shenton, Board Clerk Jolene Johnson, CCEA Randy Mead, High Plains Propane Jill Grover, Teacher

Approval of Agenda

Motion was made to approve the agenda by Mr. Strong, seconded by Mr. Raya. Motion passed.

Public Input

None

Maintenance Report

Mr. Hager had examples of the playground chips they will put around the playground. He also had a pole barn drawing that can be used for the school cars and van to keep out of the weather, which will cost around $15,000 to build. The roof replacement of the high school will start June 2nd or close to that date.

Principal Report

Ms. Winters reported that she did not have IStation testing graph due to other testing being done this month. They have finished the Safer Smarter Kids Program and had a Bobcat assembly. They have been working on the master schedule and inventions. She has been doing observations, evaluations, and working on summer IDLA registration. The Lindy Ross received a water fountain grant to replace an old water fountain. She has been to trainings and online meetings which include law institute, Cognia training, math leadership, special learning disabilities, Edplan, Istation, and CSI-up. Events coming up this month are play day, field trip and then the awards ceremony.

Superintendent Report

Ms. Holden was on the phone and reported on what she has been working on. She let the board know that Forest Funds money came in and we received $11,564, the past two years we received $87,443 and $92,263. There is talk that we might be more, but if we do it will not equal what we have received before. The school also has received quotes for the phone systems in the schools and are hoping to do that this summer. The pole building that Dan presented will just give us more room in the bus barn for all the

busses and Noe being able to work in the building. She will be working on the budget the rest of the month. She has listened to the legislative roadshow and one of the items that is going to be required is students learning cursive and being proficient by the 5th grade. She updated the trustee scholarships, she is working on CSFGA and she stated that the ISAT scores were going well so far.

Consent Agenda

Motion was made to accept the consent agenda by Mr. Strong, seconded by Ms. Williams. Motion passed.

Propane quotes 25-26, 26-27

Motion was made to accept the High Plains Propane quote, which includes extending to another year by Mr. Strong, seconded by Mrs. Williams. Motion passed.
