Section IV.B: Narrative on Measuring College and Career Advising and Mentoring Progress

Instructions: If you are choosing to use section IV.B to address the Section IV requirement, please use the box below to provide a brief narrative describing how your LEA is measuring your progress towards your LEA's college and career advising and mentoring goals and targets. Please note that your description must include at least one clear performance metric that is measurable, has a performance target / goal for 2022-23, and is distinctly *different* than those required in Section I, above.

Clark County is following the belief that exposure to college campus and personnel will help the ease in the transition on to a secondary education. Our population has a very low soci-economic background and the exposure is not something the families can provide, and so we arrange for opportunites for students to see different campus in order to facilitate a familiarity for the students. With this goal in mind, we arrange the opportunity for students to tour campus as part of our plan. We will also bring in guest speakers from a variety of industries that do not necessarily require a 4 year degree, but trade school of some type to talk with the students and explain how to go about working successfully in their fields.

Section V: Report of Progress Narrative (required)

Instructions: In the provided box, please address the progress your LEA made towards your 2021-2022 Performance Targets (as chosen for your 2021-2022 CIP and included in the sections above). We recommend your reflection include a) your successes in meeting performance targets; b) your areas of challenge (including those where previously set performance targets were not met); and c) any plans you have to build on your success and/or address challenges. You may expand the size of the box, if needed.

In reviewing previous years data, and our small enrollment, we felt that small gains in percent would be reasonable and show growth being made. These percentages are also attainable which is important when setting goals. In other areas because of the small enrollment, we can meet them at 100% because we are able to follow up an ensure we have met with all students and reviewed their plans. We were able to visit 4 different college campus with a large percent of our students visiting all four. We had a few seniors last year that were able to visit a 5th campus also. Bringing in speakers allowed us to minimize exposure in COVID situations and allowed our students to see different opportunities that did not require a 4-year degree to start out. This was extremely successful in 2020-21 but was less successful due to the new programs implemented with the students such as Sources of Strength and CORE that took the time away from outside speakers.

Section VI: Notes (Optional space for contextual information about data and/or target-setting process)

NOTES: NOTES: The number of staff per instructional grade/subject is less than 5 in all areas.
