METRICS

Continuous Improvement Plan - Metrics Requirements		
Included	**Required Item**	**Notes**
/	Report of Progress (previous year data) for all required "Statewide Continuous Improvement Measures" are provided OR a link to the district / charter school Report Card is provided. ➢ Where required, both the number and percentage of students who hit the established target; **AND** ➢ Where required, improvement in performance, as measured by year-over-year growth in the percentage of students scoring at grade level	Unfortunately, as noted when you submitted your plan, you used a metrics template that we had on our website for a very brief time. Due to changes in the plans for the rollout of district report cards (that the SDE was working on), we had to adjust our template, as the district report cards do not include all of the required historical data. As a result, the old template (the one you used) does not adequately meet the CIP reporting requirements, since some of the CIP metrics will not be on the report card and must be reported as a part of your 2018-19 CIP. We apologize for any confusion or extra work this has caused. I believe that you will see that we still made every effort to minimize the data that you have to provide. The updated Combined District Plan Metrics – Template Part 2 Option B is available on our website: https://boardofed.idaho.gov/k-12-education/school-district-charter-school-planning-training/. Please download it and re-submit your metrics in the new format. If you have questions about using that template or if I can be of assistance, please let me know.
/	Benchmarks (performance targets) for 2018-2019 are set for all required "Statewide Continuous Improvement Measures"	Your metrics table is missing a Benchmark for 4-year cohort graduation rate. Additionally, please move all of your created Benchmarks into the newer metrics table (see above for more details).
